The author warrants that this publication and the supplemental material will not infringe any rights of third parties. The author retains all rights to use in future works all or parts of the contribution, claims all rights to use in future works all or parts of the contribution with respect to from culpability false statements made by the author with respect to the non-existence of third party rights, or from other circumstances for which the author is responsible by virtue of the article's publication in LIPCs - *Leibniz International Proceedings in Informatics*. This does not apply if the injury results from intentional or grossly negligent behavior on the part of the publisher and its staff, and if the author is not culpable of comparable gross negligence or deliberate intent. In the latter case, damages will be allocated taking into account the share of blame incurred by each party. If a third party claims that the publication of the article has given rise to a copyright violation, and if the author is unable to appropriately rebut that claim such that his entitlement is credibly established, when asked to do so by the publisher, the publisher may restrict access to the article until the legal situation has been clarified.

To support the editors and Schloss Dagstuhl in preparing the proceedings, the author hereby agrees to provide all source material (LaTeX files, graphics, . . .) as well as detailed metadata (full names of the authors, title of the contribution, contact author, e-mail address of the contact author, keywords, classification (ACM 2012), and abstract of the contribution).

- to edit the contribution especially with regard to typesetting and language for reaching established publication standards,
- to notify digital archive systems therefore, and
- to convert the contribution for the purpose of archiving and if required (e.g. to improved accessibility) to convert to other electronic and physical formats.

To allow the widest and easiest possible distribution of the metadata, the author agrees that the work may be published under the Creative Commons CC0 1.0 Universal (CC0 1.0) Public Domain Dedication License². The proceedings are published Open Access in electronic form as a volume in the series LIPics - Leibniz International Proceedings in Informatics (LIPICS) that is maintained by Schloss Dagstuhl - Leibniz-Zentrum für Informifik GmbH, Germany; see <http://www.dagstuhl.de/lipics>.

The author hereby authorizes the editors and Schloss Dagstuhl to organize the publication of the contribution in the Proceedings of the 17th Innovations in Theoretical Computer Science Conference (ITCS 2026) in electronic and printed form. The publication of the contribution will be protected by the Creative Commons Attribution 4.0 International License (CC BY 4.0)¹. In brief, this license authorizes each and everybody to share (to copy, distribute and transmit) the work under the following condition, without impairing or restricting the authors' moral rights:

The corresponding author hereby certifies that (s) he has the right to grant the licenses mentioned below.
